Renee:

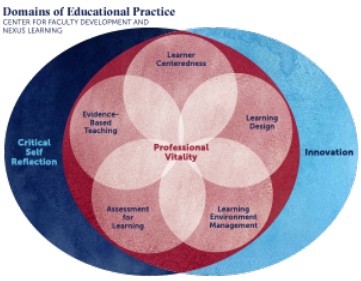

The Jefferson Institute for Smart and Healthy Cities appreciates your Seed grant application "Pop-Up as Public Health: A Transdisciplinary Model for Urban Harm Reduction Education" and considered your request. We are pleased to inform you that your project has been selected for funding starting July 1, 2025 and running through June 15, 2026. The budgets will be managed by the College of Population Health and reimbursements processed through them.

In August we will convene a meeting with the new grantee teams to touch base on plans and expectations. Look for an invitation to that meeting in the coming weeks. In the meantime, please feel free to reach out to any of us with any questions.
